

Every number, on one sheet.

What a machine costs to buy, what it costs to lease, what it costs to get live, and what it costs to keep running. The same prices for everyone — what changes with your site is the quotation, not this list. Every figure excludes VAT.

Our own machine, trading since June 2026.

BUYING OUTRIGHT

The machine, installed

Excluding VAT. Commissioning and delivery is a further £900, the same whichever machine and whichever route.			
MACHINE	WHAT IT IS	MACHINE	INSTALLED
Mini 360	580 mm wide · 36 lanes	£2,999	£3,899
Pro 542	750 mm wide · 49 lanes	£4,199	£5,099
Freezer 550	frozen, -22 to -18 °C	£5,299	£6,199
Ultra 1200	1,370 mm twin-door	£6,499	£7,399

LEASING

The same machines, monthly

Excluding VAT. Commissioning and delivery is a further £900, the same whichever machine and whichever route.			
MACHINE	WHAT IT IS	MACHINE	A MONTH
Mini 360	580 mm wide · 36 lanes	£2,999	£85
Pro 542	750 mm wide · 49 lanes	£4,199	£119
Freezer 550	frozen, -22 to -18 °C	£5,299	£150
Ultra 1200	1,370 mm twin-door	£6,499	£184

Three quarters of every rental comes off the price of the machine, so a lease converts to ownership whenever you choose.

Worked on the Pro 542. The same rule applies to every model.

BUY THE MACHINE	RENTALS PAID	BALANCE TO OWN IT
Now	—	£4,199
After 12 months	£1,428	£3,128
After 24 months	£2,856	£2,057
After 36 months	£4,284	£986

ONE-OFF

Charges that happen once

Commissioning and delivery — survey, delivery and positioning, card facility, lane layout, catalogue, installation, first fill, training, 90 days of support	£900
Collection , payable only if a leased machine is handed back	£300

Commissioning is the same figure whichever machine you take, whichever route you take it on, and wherever in the country it goes.

RECURRING

Charges that repeat

Care plan — monitoring, remote diagnosis, price and product changes, recognition training, warranty claims handled with the factory, one site visit a year	Free for 12 months, then £360 a year
Maimava back office — sales to the item, costed margins, VAT records, host statements, per-box P&L	Free for 6 months, then 1% of gross, min £5
Not paid to us: AI service fee, card payments, electricity and insurance	about £39 a month on site Wi-Fi, plus up to 1.6% and about 8p a sale

The back office is optional throughout — the fridge works without it, and you can stop paying for it without giving the machine back. The £39 assumes a Pro 542 and 25p a unit; the Freezer 550 and the Ultra 1200 draw materially more electricity, and the specification sheet gives the monthly figure for each.

This is a price list, not an offer capable of acceptance — a machine goes in against a written quotation and our Equipment Supply and Hire Agreement, both of which you get in full before you commit to anything. Prices are subject to a site survey, availability and lead time.
